

# ELVIN MAMMADLI

## FRONTEND DEVELOPER

I'm passionate about technology and this passion drove me to become a frontend developer. I think doing what you love is the most important thing in life. My eagerness to learn new technologies makes me to become a better developer day by day.

My hobbies: Sports, Movies, Travelling, Hiking

## WORK EXPERIENCE

### FRONTEND REACT DEVELOPER

11/2022 - PRESENT

State Information Technology and Data Management Centre under the Economy Ministry of the Azerbaijan Republic - fulltime

Projects: SBMS ERP application

Stacks: React.js, SCSS, Redux Toolkit

- Work closely with design, product management, and development teams to create elegant, usable, responsive and interactive interfaces across multiple devices.
- Improving the general look and feel of not well-crafted components, refactoring of the old codebase.
- JS functionality for forms, popups and other components of that sort as well as occasional styling.
